

THE VOCATIONAL COURSES CATALOGUE

1. BASIC ENTREPRENEURSHIP

Course Objective:

To equip learners with practical knowledge and skills for identifying business opportunities, developing business ideas, preparing simple business plans, managing resources, understanding customers and establishing sustainable income-generating ventures.

Recommended Duration: 2–3 months.

Entry Qualifications: Basic literacy and numeracy; willingness to learn business and entrepreneurial skills.

Main Subjects/Modules:

- Introduction to Entrepreneurship
- Business Idea Identification
- Opportunity Identification
- Business Planning
- Basic Bookkeeping
- Pricing and Costing
- Marketing and Sales
- Customer Relations
- Business Ethics
- Financial Literacy
- Digital Entrepreneurship
- Business Risk Management

Practical Training: Development of a business idea, preparation of a simple business plan, market survey, costing exercise and simulated business operation.

Tools/Equipment Required: Computer/smartphone, calculator, stationery, internet access and basic business-planning materials.

Employment Opportunities: Business-support organizations, NGOs, entrepreneurship programmes, SMEs and community development projects.

Self-Employment Opportunities: Starting a retail business, service business, consultancy, online business, distribution business or small manufacturing enterprise.

Estimated Start-Up Capital: Approximately **TZS 300,000–5,000,000**, depending on the business.

Target Market: Youth, unemployed persons, women, existing small-business owners, aspiring entrepreneurs and informal-sector operators.

Recommended Certification Level: Certificate of Entrepreneurship/Short-Course Certificate; progression into an appropriate NTA-based business programme where available.

2. MICRO AND SMALL BUSINESS MANAGEMENT

Course Objective:

To develop practical managerial skills required to establish, operate, control and grow micro and small enterprises.

Recommended Duration: 3 months.

Entry Qualifications: Basic education, basic numeracy and literacy.

Main Subjects/Modules:

- Small Business Management
- Business Planning
- Bookkeeping
- Cash Management
- Stock Management
- Procurement
- Marketing
- Customer Management
- Human Resource Basics

- Business Tax Awareness
- Business Records
- Risk Management

Practical Training: Preparation of business records, stock-taking, cash-flow preparation, budgeting and simulated management of a small enterprise.

Tools/Equipment: Calculator, computer, accounting software/spreadsheets, stationery and business-record templates.

Employment Opportunities: SMEs, NGOs, business-support organizations', retail businesses and administrative positions.

Self-Employment Opportunities: Business consultancy, retail shops, service businesses, trading enterprises and management-support services.

Estimated Start-Up Capital: TZS 500,000–10,000,000+, depending on enterprise type.

Target Market: Small-business owners, entrepreneurs, youth, women and informal-sector operators.

Recommended Certification Level: Certificate in Micro and Small Business Management/short professional certificate.

3. CUSTOMER CARE

Course Objective:

To develop professional customer-service, communication, complaint-handling and customer-retention skills.

Recommended Duration: 1–2 months.

Entry Qualifications: Basic literacy and good communication ability.

Main Subjects/Modules:

- Principles of Customer Care
- Communication Skills
- Telephone Etiquette
- Complaint Handling

- Customer Psychology
- Professional Conduct
- Customer Retention
- Service Recovery
- Digital Customer Service

Practical Training: Role-playing, telephone simulations, complaint-resolution exercises and customer-service scenarios.

Tools/Equipment: Telephone/mobile phone, computer, headset, customer-service forms and training simulations.

Employment Opportunities: Banks, hotels, hospitals, shops, telecom companies, transport companies, schools, offices and call centers.

Self-Employment Opportunities: Customer-service consultancy, training services and customer-care outsourcing.

Estimated Start-Up Capital: TZS 200,000–2,000,000.

Target Market: Companies, SMEs, hospitality businesses, financial institutions and service organizations.

Recommended Certification Level: Certificate in Customer Care/short professional certificate.

4. FRONT OFFICE (FO)

Course Objective:

To prepare learners to professionally manage reception, visitors, telephone calls, appointments, correspondence and front-office operations.

Recommended Duration: 2–3 months.

Entry Qualifications: Basic education; communication skills; basic computer literacy recommended.

Main Subjects/Modules:

- Front Office Operations
- Reception Procedures
- Telephone Handling
- Appointment Management
- Customer Care
- Office Communication
- Filing
- Basic Computer Applications
- Professional Etiquette
- Hospitality Basics

Practical Training: Reception simulations, telephone handling, visitor registration and appointment scheduling.

Tools/Equipment: Reception desk, telephone, computer, printer, visitor registers and office stationery.

Employment Opportunities: Hotels, hospitals, schools, companies, government institutions, NGOs and offices.

Self-Employment Opportunities: Virtual receptionist, administrative-support services and office-support consultancy.

Estimated Start-Up Capital: TZS 500,000–3,000,000.

Target Market: Hotels, offices, hospitals, schools, SMEs and professional firms.

Recommended Certification Level: Certificate in Front Office Operations.

5. LIFE SKILLS

Course Objective:

To develop personal, interpersonal and practical skills necessary for responsible living, employment, entrepreneurship and community participation.

Recommended Duration: 1–2 months.

Entry Qualifications: Basic literacy.

Main Subjects/Modules:

- Communication
- Decision-Making
- Problem-Solving
- Time Management
- Teamwork
- Leadership
- Personal Responsibility
- Conflict Management
- Financial Literacy
- Workplace Ethics
- Goal Setting

Practical Training: Group activities, leadership exercises, problem-solving scenarios and communication simulations.

Tools/Equipment: Training manuals, notebooks, presentation equipment and digital learning devices.

Employment Opportunities: NGOs, community organizations, schools and youth-development programmes.

Self-Employment Opportunities: Life-skills training, coaching, mentoring and community training services, subject to appropriate qualifications.

Estimated Start-Up Capital: TZS 200,000–2,000,000.

Target Market: Youth, employees, schools, NGOs, community groups and entrepreneurs.

Recommended Certification Level: Certificate of Life Skills/short-course certificate.

6. SALESMANSHIP

Course Objective:

To equip learners with professional selling, negotiation, persuasion, product-presentation and customer-conversion skills.

Recommended Duration: 1–2 months.

Entry Qualifications: Basic literacy and numeracy.

Main Subjects/Modules:

- Principles of Selling
- Prospecting
- Product Knowledge
- Customer Psychology
- Communication
- Negotiation
- Closing Sales
- After-Sales Service
- Sales Records
- Digital Selling

Practical Training: Sales simulations, product demonstrations, customer role-play and field marketing.

Tools/Equipment: Smartphones, sales forms, product samples, calculators and computers.

Employment Opportunities: Banks, insurance companies, supermarkets, telecom companies, manufacturing firms and retail businesses.

Self-Employment Opportunities: Sales agency, commission-based selling, distribution and marketing services.

Estimated Start-Up Capital: TZS 200,000–3,000,000.

Target Market: Retailers, manufacturers, SMEs, distributors and service businesses.

Recommended Certification Level: Certificate in Salesmanship/Sales and Marketing.

7. BUS ATTENDANTS AND PASSENGER SERVICE OPERATIONS

Course Objective:

To develop professional skills in passenger assistance, customer care, safety awareness, boarding procedures and passenger-service operations.

Recommended Duration: 2–3 months.

Entry Qualifications: Basic literacy; good communication skills; suitability for passenger-service duties.

Main Subjects/Modules:

- Passenger Service
- Bus Attendant Duties
- Customer Care
- Passenger Safety
- Boarding Procedures
- Ticketing Assistance
- Communication
- Emergency Procedures
- Basic First Aid
- Professional Ethics

Practical Training: Passenger-service simulations, boarding procedures, emergency drills and customer-service exercises.

Tools/Equipment: Passenger-service training equipment, first-aid kit, communication devices and mock ticketing materials.

Employment Opportunities: Bus companies, tour operators, passenger transport companies and transport terminals.

Self-Employment Opportunities: Passenger-service support, transport-service agency and tourism/transport support services.

Estimated Start-Up Capital: TZS 500,000–5,000,000.

Target Market: Bus companies, tour operators, transport companies and passenger-service providers.

Recommended Certification Level: Certificate in Passenger Service Operations.

8. COMPUTER APPLICATION COURSE

Course Objective:

To provide learners with practical digital-literacy skills for education, employment, business and everyday activities.

Recommended Duration: 2–3 months.

Entry Qualifications: Basic literacy.

Main Subjects/Modules:

- Computer Fundamentals
- Windows/Operating Systems
- Word Processing
- Spreadsheets
- Presentations
- Internet
- Email
- File Management
- Online Collaboration
- Basic Digital Security

Practical Training: Word documents, spreadsheets, presentations, email, internet research and digital filing.

Tools/Equipment: Computers, printers, projector, internet connection and storage devices.

Employment Opportunities: Offices, schools, NGOs, companies, cyber cafés and government institutions.

Self-Employment Opportunities: Typing, printing, data entry, document preparation, computer training and digital services.

Estimated Start-Up Capital: TZS 1,000,000–10,000,000.

Target Market: Students, job seekers, employees, SMEs, teachers and entrepreneurs.

Recommended Certification Level: Certificate in Computer Applications/Digital Literacy.

9. COMPUTER REPAIR AND MAINTENANCE

Course Objective:

To train learners to diagnose, repair, maintain and troubleshoot computers and related hardware.

Recommended Duration: 3–6 months.

Entry Qualifications: Basic education; computer literacy desirable.

Main Subjects/Modules:

- Computer Hardware
- Operating Systems
- Hardware Diagnosis
- Computer Assembly
- Software Installation
- Troubleshooting
- Networking Basics
- Preventive Maintenance
- Data Backup
- Cybersecurity Awareness

Practical Training: Computer disassembly/assembly, operating-system installation, fault diagnosis and hardware replacement.

Tools/Equipment: Screwdriver sets, multimeter, anti-static equipment, computers, spare parts, cleaning equipment and diagnostic software.

Employment Opportunities: ICT companies, schools, computer shops, offices and repair centers.

Self-Employment Opportunities: Computer-repair workshop, field technician services and maintenance contracts.

Estimated Start-Up Capital: TZS 1,500,000–10,000,000.

Target Market: Schools, SMEs, offices, households, cyber cafés and institutions.

Recommended Certification Level: Certificate in Computer Hardware and Maintenance.

10. ARTIFICIAL INTELLIGENCE (AI) BASICS & APPLICATIONS

Course Objective:

To introduce learners to practical applications of artificial intelligence in business, education, administration, content creation and productivity.

Recommended Duration: 1–3 months.

Entry Qualifications: Basic computer literacy; basic English is advantageous.

Main Subjects/Modules:

- Introduction to AI
- Generative AI
- AI Tools
- Prompting
- AI for Business
- AI for Education
- AI-Assisted Content Creation
- AI Research
- AI Ethics
- Data Privacy
- Automation Basics

Practical Training: Using AI tools for writing, research, business planning, presentations, marketing and workflow automation.

Tools/Equipment: Computers/smartphones, internet access and appropriate AI software.

Employment Opportunities: Digital agencies, ICT firms, businesses, educational institutions and consulting organizations.

Self-Employment Opportunities: AI-assisted digital services, content creation, AI training, automation support and digital consultancy.

Estimated Start-Up Capital: TZS 300,000–5,000,000.

Target Market: SMEs, professionals, students, teachers, entrepreneurs and organizations.

Recommended Certification Level: Certificate in AI Applications/AI Digital Skills.

11. GRAPHIC DESIGN

Course Objective:

To develop creative and technical skills for producing professional visual communication materials.

Recommended Duration: 3–6 months.

Entry Qualifications: Basic computer literacy and creativity.

Main Subjects/Modules:

- Design Principles
- Typography
- Colour Theory
- Logo Design
- Branding
- Advertising Design
- Digital Illustration
- Image Editing
- Print Design

- Social Media Graphics

Practical Training: Logos, posters, brochures, business cards, social-media graphics and brand identities.

Tools/Equipment: Computers, graphics software, drawing tablets, printer and internet.

Employment Opportunities: Advertising agencies, printing companies, media companies, NGOs and businesses.

Self-Employment Opportunities: Graphic-design studio, branding agency and freelance design business.

Estimated Start-Up Capital: TZS 1,500,000–8,000,000.

Target Market: SMEs, schools, churches, NGOs, events, companies and individuals.

Recommended Certification Level: Certificate in Graphic Design/Digital Design.

12. WEBSITE DESIGN

Course Objective:

To equip learners with skills to design, develop, publish and maintain functional websites.

Recommended Duration: 3–6 months.

Entry Qualifications: Basic computer literacy.

Main Subjects/Modules:

- Internet Fundamentals
- Web Design Principles
- HTML
- CSS
- Basic JavaScript
- Content Management Systems
- Website Hosting
- Domain Management
- Website Security

- Website Maintenance

Practical Training: Designing and publishing functional websites for businesses and organizations.

Tools/Equipment: Computers, internet, web-design software, hosting and development platforms.

Employment Opportunities: IT companies, web-design agencies, NGOs and businesses.

Self-Employment Opportunities: Web-design agency, freelance development and website-maintenance services.

Estimated Start-Up Capital: TZS 1,000,000–6,000,000.

Target Market: SMEs, schools, hotels, NGOs, professionals and companies.

Recommended Certification Level: Certificate in Web Design/Web Development.

13. CONTENT CREATION SKILLS

Course Objective:

To train learners to professionally create, edit and distribute digital content for business, education, entertainment and marketing.

Recommended Duration: 2–3 months.

Entry Qualifications: Basic digital literacy and communication skills.

Main Subjects/Modules:

- Content Strategy
- Photography
- Videography
- Scriptwriting
- Copywriting
- Video Editing
- Audio/Podcast Production
- Social Media Content

- Branding
- Content Monetisation

Practical Training: Production of photographs, short videos, advertisements, podcasts and social-media content.

Tools/Equipment: Smartphone/camera, tripod, microphone, lighting, computer and editing software.

Employment Opportunities: Media companies, marketing agencies, NGOs and corporate communication departments.

Self-Employment Opportunities: Content-creation studio, photography, videography, YouTube/digital-content business and freelance production.

Estimated Start-Up Capital: TZS 500,000–10,000,000.

Target Market: Businesses, influencers, NGOs, schools, events, hotels and individuals.

Recommended Certification Level: Certificate in Digital Content Creation.

14. SOCIAL MEDIA MARKETING

Course Objective:

To equip learners with skills to use social-media platforms for marketing, customer acquisition, branding and business growth.

Recommended Duration: 1–3 months.

Entry Qualifications: Basic computer/smartphone literacy.

Main Subjects/Modules:

- Social Media Platforms
- Digital Marketing
- Content Strategy
- Social Advertising
- Audience Research
- Branding

- Analytics
- Customer Engagement
- Online Reputation
- Digital Sales

Practical Training: Creating business pages, developing campaigns, creating advertisements and analyzing engagement.

Tools/Equipment: Smartphone, computer, internet and social-media management software.

Employment Opportunities: Digital agencies, companies, hotels, NGOs and marketing departments.

Self-Employment Opportunities: Social-media management agency, digital marketing consultancy and online advertising services.

Estimated Start-Up Capital: TZS 300,000–3,000,000.

Target Market: SMEs, restaurants, hotels, schools, professionals, NGOs and retailers.

Recommended Certification Level: Certificate in Digital/Social Media Marketing.

15. MOBILE PHONE REPAIR

Course Objective:

To develop practical skills in diagnosing, maintaining and repairing smartphones and mobile devices.

Recommended Duration: 3–6 months.

Entry Qualifications: Basic education; technical aptitude.

Main Subjects/Modules:

- Mobile Phone Components
- Fault Diagnosis
- Screen Replacement
- Battery Systems

- Charging Systems
- Software Troubleshooting
- Soldering
- Circuit Diagnosis
- Preventive Maintenance

Practical Training: Complete diagnosis and repair of common mobile-phone faults.

Tools/Equipment: Soldering station, hot-air station, multimeter, screwdrivers, microscope, power supply and spare parts.

Employment Opportunities: Mobile-phone shops, repair centers and electronics businesses.

Self-Employment Opportunities: Mobile-phone repair shop, field repair and accessories business.

Estimated Start-Up Capital: TZS 1,000,000–8,000,000.

Target Market: Mobile-phone users, students, businesses and the general public.

Recommended Certification Level: Certificate in Mobile Phone Repair and Maintenance.

16. OFFICE MACHINE MAINTENANCE (OMM)

Course Objective:

To train learners to install, maintain, troubleshoot and repair common office machines.

Recommended Duration: 3–6 months.

Entry Qualifications: Basic education; technical aptitude.

Main Subjects/Modules:

- Printers
- Photocopiers
- Scanners
- Office Equipment
- Fault Diagnosis

- Electrical Safety
- Preventive Maintenance
- Consumables Management

Practical Training: Printer servicing, photocopier maintenance, component replacement and troubleshooting.

Tools/Equipment: Multimeter, screwdrivers, cleaning equipment, diagnostic tools and spare parts.

Employment Opportunities: ICT companies, offices, schools, printing businesses and equipment suppliers.

Self-Employment Opportunities: Office-equipment repair and maintenance business.

Estimated Start-Up Capital: TZS 1,500,000–10,000,000.

Target Market: Offices, schools, hospitals, NGOs, government institutions and SMEs.

Recommended Certification Level: Certificate in Office Machine Maintenance.

17. SECRETARIAL COURSE (SC)

Course Objective:

To develop professional administrative, communication, filing, typing and office-management skills.

Recommended Duration: 3–6 months.

Entry Qualifications: Basic education; basic computer literacy desirable.

Main Subjects/Modules:

- Office Administration
- Typing
- Word Processing
- Filing
- Correspondence
- Telephone Etiquette

- Minute Taking
- Records Management
- Reception
- Basic Accounting
- Office Ethics

Practical Training: Typing, document preparation, filing, correspondence and simulated office administration.

Tools/Equipment: Computers, printers, photocopiers, filing cabinets and office stationery.

Employment Opportunities: Law firms, companies, schools, hospitals, government offices and NGOs.

Self-Employment Opportunities: Secretarial bureau, typing center, virtual-assistant services and document-preparation business.

Estimated Start-Up Capital: TZS 1,000,000–5,000,000.

Target Market: SMEs, professionals, students, companies and institutions.

Recommended Certification Level: Certificate in Secretarial Studies/Office Administration.

18. ALUMINIUM FITTING

Course Objective:

To train learners to fabricate and install aluminium doors, windows, partitions and related structures.

Recommended Duration: 3–6 months.

Entry Qualifications: Basic mathematics; manual aptitude.

Main Subjects/Modules:

- Aluminium Materials
- Measurement
- Cutting
- Fabrication

- Assembly
- Glass Installation
- Door and Window Installation
- Workshop Safety
- Estimation and Costing

Practical Training: Fabrication and installation of aluminium windows, doors and partitions.

Tools/Equipment: Aluminium cutting machine, drills, measuring tape, clamps, screwdrivers, rivet tools and safety equipment.

Employment Opportunities: Construction companies, aluminium workshops and building contractors.

Self-Employment Opportunities: Aluminium fabrication workshop and installation business.

Estimated Start-Up Capital: TZS 3,000,000–20,000,000.

Target Market: Homeowners, contractors, offices, shops, hotels and property developers.

Recommended Certification Level: Certificate in Aluminium Fabrication and Fitting.

19. BASIC CLEANING AND GARDENING SKILLS

Course Objective:

To develop professional cleaning, sanitation, gardening and basic environmental-maintenance skills.

Recommended Duration: 1–2 months.

Entry Qualifications: Basic literacy.

Main Subjects/Modules:

- Cleaning Procedures
- Hygiene and Sanitation
- Cleaning Chemicals
- Equipment Handling

- Gardening
- Landscaping Basics
- Waste Management
- Safety
- Customer Service

Practical Training: Cleaning offices, homes and public areas; lawn maintenance; planting and basic landscaping.

Tools/Equipment: Brooms, mops, buckets, vacuum cleaner, gardening tools, gloves and protective clothing.

Employment Opportunities: Hotels, hospitals, schools, offices, estates and cleaning companies.

Self-Employment Opportunities: Cleaning company, gardening service and property-maintenance business.

Estimated Start-Up Capital: TZS 300,000–3,000,000.

Target Market: Homes, offices, hotels, schools, hospitals and property managers.

Recommended Certification Level: Certificate in Cleaning and Gardening Services.

20. CARPENTRY AND JOINERY (CJ)

Course Objective:

To develop skills in designing, constructing, finishing and repairing wooden furniture and structures.

Recommended Duration: 6–12 months.

Entry Qualifications: Basic education; basic mathematics; practical aptitude.

Main Subjects/Modules:

- Wood Technology
- Measurement
- Wood Cutting

- Joinery
- Furniture Construction
- Doors and Windows
- Cabinet Making
- Finishing
- Upholstery Basics
- Workshop Safety
- Costing

Practical Training: Furniture, doors, cabinets, tables, beds and other wooden products.

Tools/Equipment: Saws, planes, chisels, drills, measuring tools, workbench, sanding equipment and finishing tools.

Employment Opportunities: Furniture workshops, construction companies and interior-design businesses.

Self-Employment Opportunities: Furniture workshop, custom furniture and carpentry contracting.

Estimated Start-Up Capital: TZS 2,000,000–20,000,000.

Target Market: Households, schools, offices, hotels, restaurants and construction companies.

Recommended Certification Level: Certificate in Carpentry and Joinery.

21. CCTV CAMERA INSTALLATION

Course Objective:

To train learners to install, configure, maintain and troubleshoot CCTV surveillance systems.

Recommended Duration: 2–4 months.

Entry Qualifications: Basic electrical/electronic knowledge desirable.

Main Subjects/Modules:

- CCTV Fundamentals

- Camera Types
- Cabling
- DVR/NVR Systems
- Network Cameras
- Camera Positioning
- Configuration
- Maintenance
- Basic Networking
- Security Principles

Practical Training: Installation and configuration of complete CCTV systems.

Tools/Equipment: CCTV cameras, DVR/NVR, monitor, cables, connectors, drill, tester and network tools.

Employment Opportunities: Security companies, ICT companies, schools, banks, offices and homes.

Self-Employment Opportunities: CCTV installation and security-technology company.

Estimated Start-Up Capital: TZS 2,000,000–15,000,000.

Target Market: Homes, shops, schools, offices, warehouses, hotels and institutions.

Recommended Certification Level: Certificate in CCTV Installation and Maintenance.

22. FLOOR TILING

Course Objective:

To develop practical skills in measuring, preparing surfaces, cutting and installing floor and wall tiles professionally.

Recommended Duration: 2–4 months.

Entry Qualifications: Basic mathematics and practical aptitude.

Main Subjects/Modules:

- Tile Types

- Surface Preparation
- Measurement
- Tile Cutting
- Adhesives
- Floor Installation
- Wall Tiling
- Grouting
- Finishing
- Estimation and Costing

Practical Training: Installation of tiles in floors, walls, bathrooms and commercial premises.

Tools/Equipment: Tile cutter, grinder, spirit level, trowels, spacers, buckets and safety equipment.

Employment Opportunities: Construction companies and building contractors.

Self-Employment Opportunities: Tiling contractor/business.

Estimated Start-Up Capital: TZS 500,000–5,000,000.

Target Market: Homeowners, contractors, hotels, offices and property developers.

Recommended Certification Level: Certificate in Floor and Wall Tiling.

23. HOUSE DECORATIONS MAKING

Course Objective:

To develop creative skills for producing decorative items and beautifying residential and commercial spaces.

Recommended Duration: 2–4 months.

Entry Qualifications: Basic literacy; creativity and manual ability.

Main Subjects/Modules:

- Interior Decoration

- Colour Coordination
- Decorative Crafts
- Wall Decorations
- Event Decorations
- Fabric Decoration
- Furniture Decoration
- Design Principles
- Customer Relations

Practical Training: Production of decorative items and decoration of sample rooms/events.

Tools/Equipment: Fabrics, glue, scissors, decorative materials, sewing equipment and craft tools.

Employment Opportunities: Interior-decoration firms, hotels, event companies and craft businesses.

Self-Employment Opportunities: Home decoration, event decoration and decorative-products business.

Estimated Start-Up Capital: TZS 500,000–5,000,000.

Target Market: Homes, hotels, offices, weddings, events and restaurants.

Recommended Certification Level: Certificate in Interior and House Decoration.

24. HOUSE PAINTING

Course Objective:

To train learners in professional preparation, painting, finishing and maintenance of residential and commercial buildings.

Recommended Duration: 2–4 months.

Entry Qualifications: Basic literacy; practical aptitude.

Main Subjects/Modules:

- Paint Types

- Surface Preparation
- Colour Mixing
- Brush and Roller Techniques
- Spray Painting
- Interior Painting
- Exterior Painting
- Finishing
- Estimation and Costing
- Safety

Practical Training: Complete painting of walls, ceilings, doors and other surfaces.

Tools/Equipment: Brushes, rollers, spray equipment, ladders, scrapers, sandpaper and protective clothing.

Employment Opportunities: Construction companies, painting contractors and property-management firms.

Self-Employment Opportunities: Painting contractor/business.

Estimated Start-Up Capital: TZS 500,000–5,000,000.

Target Market: Homeowners, landlords, contractors, offices, hotels and institutions.

Recommended Certification Level: Certificate in Painting and Decoration.

25. MASONRY AND BRICKLAYING (MB)

Course Objective:

To train learners in construction of walls, foundations and other masonry structures.

Recommended Duration: 6–12 months.

Entry Qualifications: Basic education; basic mathematics; physical/manual aptitude.

Main Subjects/Modules:

- Construction Materials

- Measurement
- Foundations
- Bricklaying
- Blockwork
- Concrete Work
- Plastering
- Building Finishes
- Construction Safety
- Estimation

Practical Training: Construction of walls, foundations, columns and other masonry structures.

Tools/Equipment: Trowels, spirit levels, tape measures, wheelbarrows, shovels, masonry tools and PPE.

Employment Opportunities: Construction companies, contractors and property developers.

Self-Employment Opportunities: Building contractor, masonry services and house-renovation business.

Estimated Start-Up Capital: TZS 1,000,000–10,000,000+.

Target Market: Homeowners, construction contractors, property developers and institutions.

Recommended Certification Level: Certificate in Masonry and Bricklaying.

26. PAINTING AND SIGNWRITING (PS)

Course Objective:

To train learners to produce professional signs, lettering, advertisements and decorative artwork.

Recommended Duration: 3–6 months.

Entry Qualifications: Basic literacy; creativity and drawing aptitude.

Main Subjects/Modules:

- Signwriting
- Lettering
- Graphic Layout
- Colour Theory
- Hand Painting
- Digital Sign Design
- Vehicle Branding
- Advertising Signs
- Finishing

Practical Training: Production of shop signs, banners, vehicle graphics and promotional displays.

Tools/Equipment: Brushes, paints, cutting tools, computer, printer, design software and sign-making materials.

Employment Opportunities: Advertising agencies, printing companies and sign-making businesses.

Self-Employment Opportunities: Signwriting workshop, signage and vehicle-branding business.

Estimated Start-Up Capital: TZS 1,000,000–8,000,000.

Target Market: Shops, companies, schools, NGOs, events and institutions.

Recommended Certification Level: Certificate in Signwriting and Visual Communication.

27. PLUMBING AND PIPE FITTING (PPF)**Course Objective:**

To develop practical skills in installation, maintenance and repair of water, drainage and sanitary systems.

Recommended Duration: 6–12 months.

Entry Qualifications: Basic mathematics; practical aptitude.

Main Subjects/Modules:

- Plumbing Materials
- Pipe Measurement
- Pipe Cutting
- Jointing
- Water Supply
- Drainage
- Sanitation
- Bathroom Installation
- Pumps
- Maintenance
- Safety

Practical Training: Installation of water systems, drainage systems, taps, toilets, showers and pipes.

Tools/Equipment: Pipe cutters, wrenches, pipe threading tools, drills, levels, measuring tools and PPE.

Employment Opportunities: Construction companies, hotels, hospitals, factories and property-management companies.

Self-Employment Opportunities: Plumbing contracting and maintenance business.

Estimated Start-Up Capital: TZS 1,000,000–8,000,000.

Target Market: Homes, hotels, schools, hospitals, offices and construction projects.

Recommended Certification Level: Certificate in Plumbing and Pipe Fitting.

28. ELECTRICAL INSTALLATION (EL)

Course Objective:

To equip learners with practical skills for safe installation, maintenance and troubleshooting of electrical systems.

Recommended Duration: 6–12 months.

Entry Qualifications: Basic mathematics/science; technical aptitude.

Main Subjects/Modules:

- Electrical Fundamentals
- Wiring
- Circuits
- Domestic Installation
- Commercial Installation
- Distribution Boards
- Lighting
- Earthing
- Electrical Testing
- Fault Finding
- Electrical Safety

Practical Training: Wiring of houses, lighting circuits, sockets, distribution boards and electrical installations.

Tools/Equipment: Multimeter, tester, wire stripper, pliers, screwdrivers, drill, cables, switches and PPE.

Employment Opportunities: Electrical contractors, construction companies, factories and property companies.

Self-Employment Opportunities: Electrical installation and maintenance company.

Estimated Start-Up Capital: TZS 1,000,000–10,000,000.

Target Market: Households, construction companies, commercial buildings, institutions and industries.

Recommended Certification Level: Certificate in Electrical Installation; progression to nationally recognized technical qualifications as applicable.

29. ELECTRONICS (ELEC)

Course Objective:

To develop skills in electronic circuits, devices, diagnosis, repair and maintenance.

Recommended Duration: 6–12 months.

Entry Qualifications: Basic mathematics/science and technical aptitude.

Main Subjects/Modules:

- Electronic Components
- Circuit Theory
- Soldering
- Digital Electronics
- Analogue Electronics
- Power Supplies
- Fault Diagnosis
- Electronic Devices
- Repair Techniques
- Safety

Practical Training: Circuit construction, soldering, testing and repair of electronic devices.

Tools/Equipment: Multimeter, oscilloscope where available, soldering station, power supply, electronic components and testing equipment.

Employment Opportunities: Electronics repair centers, ICT companies, telecommunications and industrial companies.

Self-Employment Opportunities: Electronics repair workshop, installation and maintenance business.

Estimated Start-Up Capital: TZS 1,000,000–10,000,000.

Target Market: Households, businesses, schools, workshops and electronic-device users.

Recommended Certification Level: Certificate in Electronics/Electronic Equipment Maintenance.

30. WELDING AND FABRICATION (WF)

Course Objective:

To develop practical skills in welding, metal fabrication, structural assembly and metal-product production.

Recommended Duration: 6–12 months.

Entry Qualifications: Basic mathematics; physical/manual aptitude.

Main Subjects/Modules:

- Welding Principles
- Arc Welding
- Gas Welding
- Metal Cutting
- Fabrication
- Measurement
- Metal Joining
- Gates and Grills
- Structural Fabrication
- Workshop Safety

Practical Training: Fabrication of gates, windows, frames, furniture and metal structures.

Tools/Equipment: Welding machine, grinder, cutting machine, welding helmet, clamps, measuring tools and PPE.

Employment Opportunities: Construction companies, engineering workshops, factories and fabrication businesses.

Self-Employment Opportunities: Welding and fabrication workshop.

Estimated Start-Up Capital: TZS 2,000,000–20,000,000.

Target Market: Homeowners, construction companies, schools, offices, factories and property developers.

Recommended Certification Level: Certificate in Welding and Metal Fabrication.

31. BASIC DRIVING COURSE

Course Objective:

To develop safe and responsible vehicle-driving skills and prepare learners for the applicable driving-license process.

Recommended Duration: 1–3 months, depending on training intensity and licensing requirements.

Entry Qualifications: Must satisfy applicable legal age, identification, medical and licensing requirements.

Main Subjects/Modules:

- Road Safety
- Traffic Rules
- Vehicle Controls
- Defensive Driving
- Road Signs
- Basic Vehicle Maintenance
- Emergency Procedures
- Driving Ethics

Practical Training: Supervised driving, vehicle control, parking, maneuvering and road driving.

Tools/Equipment: Training vehicle, driving simulator where available, road-safety materials and basic vehicle-maintenance tools.

Employment Opportunities: Transport companies, logistics companies, private employers and delivery services.

Self-Employment Opportunities: Driving services, delivery services, transport business and other legally permitted driving-based businesses.

Estimated Start-Up Capital: TZS 500,000–30,000,000+, depending on whether the learner operates a vehicle personally or establishes a transport business.

Target Market: Individuals, businesses, logistics companies and transport operators.

Recommended Certification Level: Recognized driving-school certificate together with the applicable statutory driving license.

32. MOTORCYCLE MECHANICS

Course Objective:

To train learners to diagnose, service, maintain and repair motorcycles.

Recommended Duration: 6–12 months.

Entry Qualifications: Basic mathematics and mechanical aptitude.

Main Subjects/Modules:

- Motorcycle Systems
- Engine
- Fuel Systems
- Electrical Systems
- Transmission
- Braking Systems
- Suspension
- Fault Diagnosis
- Maintenance
- Workshop Safety

Practical Training: Engine servicing, brake repairs, electrical diagnosis, tire service and complete motorcycle maintenance.

Tools/Equipment: Motorcycle tool kits, spanners, sockets, multimeter, diagnostic equipment, workbench and lifting equipment.

Employment Opportunities: Motorcycle garages, dealers, transport companies and repair centers.

Self-Employment Opportunities: Motorcycle garage, mobile mechanic and spare-parts business.

Estimated Start-Up Capital: TZS 2,000,000–15,000,000.

Target Market: Motorcycle owners, delivery riders, transport operators and businesses.

Recommended Certification Level: Certificate in Motorcycle Mechanics.

33. CAKE MAKING AND DECORATIONS

Course Objective:

To equip learners with practical skills for preparing, baking, decorating and marketing cakes.

Recommended Duration: 2–4 months.

Entry Qualifications: Basic literacy; interest in food preparation.

Main Subjects/Modules:

- Baking Principles
- Ingredients
- Cake Preparation
- Oven Operation
- Icing
- Cake Decoration
- Wedding Cakes
- Cupcakes
- Food Hygiene
- Packaging
- Costing and Pricing

Practical Training: Preparation and decoration of different types of cakes.

Tools/Equipment: Oven, mixer, baking tins, weighing scale, decorating tools, refrigerator and packaging materials.

Employment Opportunities: Bakeries, hotels, restaurants and catering companies.

Self-Employment Opportunities: Home bakery, cake shop, wedding-cake business and online cake-order business.

Estimated Start-Up Capital: TZS 500,000–8,000,000.

Target Market: Families, weddings, birthdays, schools, offices, hotels and events.

Recommended Certification Level: Certificate in Cake Making and Decoration.

34. CATERING SERVICES

Course Objective:

To develop professional food preparation, event-catering and food-service skills.

Recommended Duration: 3–6 months.

Entry Qualifications: Basic literacy; interest in food preparation.

Main Subjects/Modules:

- Food Preparation
- Cooking Methods
- Menu Planning
- Food Hygiene
- Kitchen Management
- Portion Control
- Food Presentation
- Event Catering
- Costing
- Customer Service

Practical Training: Cooking, menu preparation, buffet arrangement and event catering.

Tools/Equipment: Cooking equipment, utensils, refrigerators, food-storage equipment, serving equipment and PPE.

Employment Opportunities: Hotels, restaurants, schools, hospitals and catering companies.

Self-Employment Opportunities: Catering company, event catering and mobile-food business.

Estimated Start-Up Capital: TZS 1,000,000–15,000,000.

Target Market: Weddings, meetings, institutions, offices, schools and private functions.

Recommended Certification Level: Certificate in Catering Services.

35. FOOD AND BEVERAGE SERVICES AND SALE (FBSS)

Course Objective:

To prepare learners for professional food and beverage service, customer handling, sales and hospitality operations.

Recommended Duration: 3–6 months.

Entry Qualifications: Basic education and communication skills.

Main Subjects/Modules:

- Food Service
- Beverage Service
- Table Setting
- Customer Care
- Menu Knowledge
- Order Taking
- Hygiene
- Sales
- Hospitality Etiquette

- Cash Handling

Practical Training: Restaurant service, table setting, order taking and customer-service simulations.

Tools/Equipment: Restaurant tables, service utensils, trays, POS equipment and beverage-service equipment.

Employment Opportunities: Hotels, restaurants, cafés, lodges and resorts.

Self-Employment Opportunities: Café, restaurant, food kiosk, catering and beverage-service business.

Estimated Start-Up Capital: TZS 1,000,000–20,000,000+.

Target Market: Restaurants, hotels, offices, tourists, families and event organizers.

Recommended Certification Level: Certificate in Food and Beverage Services.

36. FOOD PROCESSING (FP)

Course Objective:

To equip learners with skills for processing, preserving, packaging and adding value to agricultural and food products.

Recommended Duration: 3–6 months.

Entry Qualifications: Basic education; basic science and hygiene awareness.

Main Subjects/Modules:

- Food Processing Principles
- Food Hygiene
- Preservation
- Drying
- Juice Processing
- Fruit Processing
- Grain Processing
- Packaging

- Labelling
- Quality Control
- Costing and Marketing

Practical Training: Processing and packaging selected agricultural products.

Tools/Equipment: Processing machines, dryers, blenders, weighing scales, packaging equipment, storage equipment and PPE.

Employment Opportunities: Food-processing companies, farms, cooperatives and manufacturing businesses.

Self-Employment Opportunities: Juice processing, flour production, dried foods, spices, snacks and other value-added food businesses.

Estimated Start-Up Capital: TZS 1,000,000–30,000,000+, depending on scale.

Target Market: Households, supermarkets, schools, hotels, wholesalers and retailers.

Recommended Certification Level: Certificate in Food Processing and Value Addition.

37. DESIGN, SEWING AND CLOTHING TECHNOLOGY (DSCT)

Course Objective:

To develop professional skills in garment design, pattern development, sewing, finishing and clothing production.

Recommended Duration: 6–12 months.

Entry Qualifications: Basic education; creativity and manual aptitude.

Main Subjects/Modules:

- Fashion Design
- Drawing
- Pattern Making
- Fabric Technology
- Sewing
- Garment Construction

- Finishing
- Fashion Marketing
- Costing
- Entrepreneurship

Practical Training: Designing and producing complete garments.

Tools/Equipment: Sewing machines, cutting table, scissors, measuring tools, mannequins, irons and embroidery equipment.

Employment Opportunities: Garment factories, fashion houses and tailoring businesses.

Self-Employment Opportunities: Fashion studio, clothing brand, custom garment business and uniform production.

Estimated Start-Up Capital: TZS 1,000,000–15,000,000.

Target Market: Individuals, schools, companies, wedding clients, fashion consumers and institutions.

Recommended Certification Level: Certificate in Fashion Design and Clothing Technology.

38. TAILORING AND EMBROIDERY (TE)

Course Objective:

To train learners in garment construction, alterations, embroidery and decorative textile production.

Recommended Duration: 4–9 months.

Entry Qualifications: Basic education; manual dexterity.

Main Subjects/Modules:

- Sewing
- Pattern Cutting
- Garment Construction
- Alterations

- Embroidery
- Finishing
- Machine Maintenance
- Measurement
- Costing
- Customer Service

Practical Training: Production, alteration and embroidery of garments.

Tools/Equipment: Sewing machines, embroidery machine, scissors, needles, measuring tapes, iron and cutting table.

Employment Opportunities: Tailoring shops, garment factories, schools and fashion companies.

Self-Employment Opportunities: Tailoring shop, embroidery business, uniform production and clothing alterations.

Estimated Start-Up Capital: TZS 700,000–10,000,000.

Target Market: Households, schools, companies, churches, organizations and fashion customers.

Recommended Certification Level: Certificate in Tailoring and Embroidery.

39. BARBERING COURSE

Course Objective:

To develop professional men's hair-cutting, shaving, grooming and customer-service skills.

Recommended Duration: 2–4 months.

Entry Qualifications: Basic literacy; manual dexterity and hygiene awareness.

Main Subjects/Modules:

- Hair Cutting
- Shaving
- Hair Styling

- Beard Grooming
- Hygiene
- Equipment Maintenance
- Customer Care
- Salon Management
- Business Skills

Practical Training: Haircuts, shaving, beard styling and customer-service practice.

Tools/Equipment: Clippers, trimmers, scissors, combs, barber chair, sterilizing equipment and mirrors.

Employment Opportunities: Barbershops, hotels, salons and grooming centers.

Self-Employment Opportunities: Barbershop, mobile barbering and home-service grooming.

Estimated Start-Up Capital: TZS 500,000–5,000,000.

Target Market: Men, boys, professionals, students and event clients.

Recommended Certification Level: Certificate in Barbering.

40. HAIR DRESSING AND BEAUTY THERAPY (HDBT)

Course Objective:

To develop professional skills in hairdressing, beauty services, personal grooming and salon management.

Recommended Duration: 6–12 months.

Entry Qualifications: Basic education; manual and creative aptitude.

Main Subjects/Modules:

- Hairdressing
- Hair Cutting
- Hair Treatment
- Styling

- Braiding
- Beauty Therapy
- Hygiene
- Customer Care
- Salon Management
- Entrepreneurship

Practical Training: Hair styling, braiding, treatments and beauty-service procedures.

Tools/Equipment: Hair dryers, clippers, styling tools, salon chairs, mirrors, wash basin and beauty equipment.

Employment Opportunities: Salons, beauty centers, hotels, spas and entertainment establishments.

Self-Employment Opportunities: Hair salon, beauty center and mobile beauty services.

Estimated Start-Up Capital: TZS 1,000,000–10,000,000.

Target Market: Women, men, children, brides, professionals and event clients.

Recommended Certification Level: Certificate in Hairdressing and Beauty Therapy.

41. HAIRSTYLING, COSMETICS AND BEAUTIFICATION

Course Objective:

To provide integrated skills in hairstyling, cosmetic application, personal grooming and beautification.

Recommended Duration: 3–6 months.

Entry Qualifications: Basic education; creativity and hygiene awareness.

Main Subjects/Modules:

- Hairstyling
- Makeup Basics
- Cosmetics
- Skin Preparation

- Colour Coordination
- Bridal Styling
- Personal Grooming
- Hygiene
- Customer Service
- Business Management

Practical Training: Hair styling, makeup application, bridal preparation and beauty presentation.

Tools/Equipment: Styling tools, makeup kits, mirrors, chairs, hair dryers and cosmetic products.

Employment Opportunities: Salons, beauty centers, hotels, fashion and event businesses.

Self-Employment Opportunities: Beauty salon, makeup artist, bridal styling and mobile beauty services.

Estimated Start-Up Capital: TZS 500,000–8,000,000.

Target Market: Brides, women, models, professionals, events and general consumers.

Recommended Certification Level: Certificate in Hairstyling and Beauty Services.

42. NAIL CARE SKILLS

Course Objective:

To develop professional manicure, pedicure, nail grooming and nail-art skills.

Recommended Duration: 1–3 months.

Entry Qualifications: Basic literacy; hygiene awareness and manual dexterity.

Main Subjects/Modules:

- Manicure
- Pedicure
- Nail Preparation

- Nail Art
- Nail Hygiene
- Product Handling
- Customer Care
- Salon Safety
- Business Skills

Practical Training: Manicure, pedicure, nail shaping and decorative nail services.

Tools/Equipment: Nail clippers, files, buffers, manicure sets, pedicure equipment, sterilization equipment and appropriate products.

Employment Opportunities: Salons, spas, hotels and nail studios.

Self-Employment Opportunities: Nail salon, mobile nail services and home-based nail business.

Estimated Start-Up Capital: TZS 300,000–3,000,000.

Target Market: Women, brides, professionals, beauty clients and event customers.

Recommended Certification Level: Certificate in Nail Care and Beauty Services.

43. SKIN CARE SKILLS

Course Objective:

To equip learners with foundational professional skills in skincare, personal grooming and basic beauty treatments.

Recommended Duration: 2–4 months.

Entry Qualifications: Basic education; hygiene awareness.

Main Subjects/Modules:

- Skin Types
- Skin Hygiene
- Basic Facial Care
- Product Knowledge

- Skin Preparation
- Beauty Treatment Procedures
- Hygiene and Safety
- Customer Care
- Product Sales
- Entrepreneurship

Practical Training: Basic skincare routines and supervised beauty treatments within the learner's scope of training.

Tools/Equipment: Facial equipment, towels, treatment beds, appropriate skincare products and sanitation equipment.

Employment Opportunities: Beauty centers, salons, spas and hotels.

Self-Employment Opportunities: Skincare/beauty service business and beauty-product retailing.

Estimated Start-Up Capital: TZS 500,000–5,000,000.

Target Market: Beauty consumers, salons, spas, hotels and individuals.

Recommended Certification Level: Certificate in Basic Skin Care/Beauty Therapy.

44. MASSAGE THERAPY

Course Objective:

To develop professional skills in appropriate non-medical massage and wellness services, with emphasis on client care, hygiene, safety and professional boundaries.

Recommended Duration: 3–6 months.

Entry Qualifications: Basic education; good communication skills; physical suitability.

Main Subjects/Modules:

- Introduction to Massage
- Anatomy Basics
- Massage Techniques

- Client Consultation
- Hygiene
- Professional Ethics
- Safety
- Wellness Services
- Business Management

Practical Training: Supervised massage techniques, client positioning, hygiene procedures and service delivery.

Tools/Equipment: Massage table, towels, appropriate oils/products, sanitizing materials and protective equipment.

Employment Opportunities: Spas, hotels, wellness centers and appropriate fitness/wellness establishments.

Self-Employment Opportunities: Mobile massage services, wellness studio and massage business, subject to applicable local requirements.

Estimated Start-Up Capital: TZS 500,000–5,000,000.

Target Market: Hotels, tourists, wellness clients, professionals and private customers.

Recommended Certification Level: Certificate in Massage Therapy/Wellness Massage, subject to applicable professional requirements.

45. TOUR GUIDE (TG)

Course Objective:

To train learners to provide professional tourist-guiding, destination-information and visitor-support services.

Recommended Duration: 3–6 months.

Entry Qualifications: Basic education; good communication skills; knowledge of local environment/culture is advantageous.

Main Subjects/Modules:

- Tourism Fundamentals

- Tour Guiding
- Local History
- Culture and Heritage
- Geography
- Wildlife Awareness
- Customer Care
- Tour Interpretation
- Safety and First Aid
- Tour Planning
- Professional Ethics

Practical Training: Guided tours, interpretation exercises, visitor handling and destination familiarization.

Tools/Equipment: Maps, GPS/smartphone, binoculars where relevant, first-aid kit, communication devices and tourism materials.

Employment Opportunities: Tour companies, hotels, lodges, national parks, cultural attractions and tourism organizations.

Self-Employment Opportunities: Independent tour guiding, excursion services and tourism-support business, subject to applicable licensing.

Estimated Start-Up Capital: TZS 500,000–10,000,000+.

Target Market: Domestic tourists, international tourists, schools, travel agencies and corporate visitors.

Recommended Certification Level: Certificate in Tour Guiding/Tourism Operations, with any required statutory tourism registration/licensing.

46. BASIC TOURISM MANAGEMENT

Course Objective:

To provide foundational management skills for operating tourism businesses, destinations, visitor services and tourism-related enterprises.

Recommended Duration: 3–6 months.

Entry Qualifications: Basic education; communication skills; computer literacy desirable.

Main Subjects/Modules:

- Introduction to Tourism
- Tourism Business Management
- Tour Operations
- Customer Care
- Hospitality
- Marketing
- Tourism Entrepreneurship
- Destination Management
- Sustainable Tourism
- Tourism Finance Basics
- Tourism Safety

Practical Training: Tour planning, itinerary preparation, customer-service simulations and tourism-business projects.

Tools/Equipment: Computers, internet, maps, tourism materials and booking/management software where available.

Employment Opportunities: Hotels, tour operators, travel agencies, lodges, tourism organizations and destination-management businesses.

Self-Employment Opportunities: Tour company, travel-support business, excursion services and tourism consultancy, subject to relevant requirements.

Estimated Start-Up Capital: TZS 1,000,000–20,000,000+.

Target Market: Tourists, hotels, travel agencies, schools, companies and tourism businesses.

Recommended Certification Level: Certificate in Tourism Management/Tourism Operations.

47. HOUSEKEEPING AND LAUNDRY (HK)

Course Objective:

To develop professional skills in housekeeping, cleaning, laundry, room preparation, hygiene and property-maintenance support.

Recommended Duration: 2–4 months.

Entry Qualifications: Basic literacy; hygiene awareness and practical aptitude.

Main Subjects/Modules:

- Housekeeping Principles
- Room Preparation
- Cleaning Procedures
- Laundry
- Linen Management
- Stain Removal
- Hygiene and Sanitation
- Guest Relations
- Cleaning Equipment
- Safety
- Housekeeping Management

Practical Training: Hotel-room preparation, laundry, linen handling, cleaning and housekeeping inspections.

Tools/Equipment: Washing machine, ironing equipment, vacuum cleaner, cleaning equipment, laundry supplies, linen and PPE.

Employment Opportunities: Hotels, lodges, hospitals, hostels, offices, homes and cleaning companies.

Self-Employment Opportunities: Laundry business, domestic-cleaning company, housekeeping agency and property-maintenance services.

Estimated Start-Up Capital: TZS 500,000–10,000,000+.

Target Market: Hotels, Airbnb/property operators, households, hospitals, offices, hostels and institutions.

Recommended Certification Level: Certificate in Housekeeping and Laundry Services.
